QUALITY ON WHEELS

BIGBODY

BODY TIPPER

The BigBody name stands for tipper trucks with large transport volume and optimal rigidity, which perform as all-rounders in the agricultural sector. The tailgate is grainproof, features hydraulic closing as standard and maintains a constant contact pressure due to the locking hooks. Our BigBody models are considered market leaders in the industry, weight-optimised and made of high-quality steel. A variety of additional equipment is available for our BigBody series.

MODEL	VEHICLE TYPE	INTERNAL BODY LENGTH	WATER VOLUME WITH SILAGE ATTACHMENT
BIGBODY460^{*1}	Tandem	4.65 m	21.8 m ^{3*3}
BIGBODY500^{*1}	Tandem	5.05 m	23.7 m ^{3*3}
BIGBODY540^{*1}	Tandem	5.55 m	26.0 m ^{3*3}
BIGBODY550^{*1/*2}	Tandem	5.55 m	26.0 m ^{3*3}
BIGBODY600^{*1/*2}	Tandem	6.00 m	28.1 m ^{3*3}
BIGBODY640^{*1}	Tandem	6.50 m	33.3 m ^{3*4}
BIGBODY650^{*1/*2}	Tandem	6.50 m	33.3 m ^{3*4}
BIGBODY700^{*1/*2}	Tandem	7.00 m	35.9 m ^{3*4}
BIGBODY740^{*1}	Tandem	7.50 m	38.5 m ^{3*4}
BIGBODY750^{*1/*2}	Tandem	7.50 m	38.5 m ^{3*4}
BIGBODY790^{*1}	Tandem	8.00 m	41.0 m ^{3*4}
BIGBODY800^{*2}	Tridem	8.00 m	41.0 m ^{3*4}
BIGBODY900^{*2}	Tridem	9.00 m	46.1 m ^{3*4}
BIGBODY980	Tridem	9.80 m	50.1 m ^{3*4}

^{*1} Also available as Carrier model

^{*2} Also available as two-way tipper

^{*3} With 60 cm silage attachment

^{*4} With 80 cm silage attachment

PROBODY

NEXT LEVEL BODY TIPPER

The ProBody sets new standards in the appearance and manufacture of modern tippers. The clever side angle of the body ensures maximum stability. The front wall with large viewing window is angled to the front and combines with the optimised design of the grainproof 2m-high tipper body to give the ProBody more transport volume with less tare weight. The angled front wall helps the load to slide off, thus ensuring faster and more reliable unloading. The hydraulic tailgate rounds off the design of the tipper body.

MODEL	VEHICLE TYPE	INTERNAL BODY LENGTH	WATER VOLUME WITH 30 CM SILAGE ATTACHMENT
PROBODY760	Tandem	8.00/7.50 x 2.32/2.22 x 2.00 m	40.0 m ³

RAMBODY

PUSH-OFF TRAILER

Our push-off trailers of the RamBody series are innovative horizontal unloading trailers for the agricultural sector. The trailers are robust, durable and offer the best possible ride comfort thanks to their well-engineered running gear. With their push-off function and wide-range of possible applications, they are the ideal solution for efficient transport in agriculture. Thanks to the push blade with large, grille-style viewing window, the driver always has a good view of the load.

MODEL	VEHICLE TYPE	INTERNAL BODY LENGTH	WATER VOLUME WITH SILAGE ATTACHMENT
RAMBODY680+ ^{*1}	Tandem	6.46 m	32.0 m ³ ^{*3}
RAMBODY750	Tandem	7.63 m	42.1 m ³ ^{*4}
RAMBODY750+ ^{*2}	Tandem	8.14 m	44.5 m ³ ^{*4}
RAMBODY900	Tridem	9.05 m	50.0 m ³ ^{*4}
RAMBODY900+ ^{*2}	Tridem	9.56 m	52.5 m ³ ^{*4}

from 2025

^{*1} Only available with volume tailgate.

^{*2} The increased water volume is achieved by a volume tailgate.

^{*3} With 60 cm aluminum attachment.

^{*4} With 30 cm aluminum attachment.

THL

HOOK LIFT TRAILER

Our THL model series consists of flexible hook lift roll-off tippers for use in various industries. With a high payload, the ability to use various tractor vehicles and practical options such as steered axles, they offer economical and versatile solutions. Thanks to the extensive range of configuration options, our THL models are always perfectly suited to the task – whether it be in agriculture, construction or the municipal sector.

MODEL	VEHICLE TYPE	LIFTING CAPACITY	CONTAINER LENGTH STANDARD	MAX. CONTAINER LENGTH
THL10L	Tandem	11 t	5.00 m	max. 5.50 m
THL11L	Tandem	11 t	5.00 m	max. 5.50 m ^{*2}
THL16L ^{*1}	Tandem	16 t	4.75 m	max. 6.25 m ^{*2}
THL20L ^{*1}	Tandem	20 t	6.25 m	max. 6.75 m ^{*2}
THL21L	Tandem	20 t	5.75 m	max. 7.50 m ^{*2}
THL25L	Tridem	25 t	7.00 m	max. 8.50 m ^{*2}
THL30L	Tridem	30 t	7.00 m	max. 8.50 m ^{*2}

^{*1}Available as Carrier and Carrier+ model with steering axle.

^{*2}With extended roll-off tipper and/or extendible underride guard. Option subject to extra charge.

SAND & GRAVEL SK

EARTH-MOVING TIPPER WITH FLAT FLOOR

Our sand and gravel tipper (SK) model series consists of versatile all-rounder tippers with conical body and flat floor sheet. Optional body extensions can be fitted to increase the volume for transporting various bulk goods. The SK model series is based on the successful BigBody series, but has been specially optimised for earth-moving applications.

MODEL	VEHICLE TYPE	PAYLOAD ON OWN PREMISES	WATER VOLUME	VOL. ACC. TO ISO 7546	WATER VOLUME WITH 80 CM EXTENSION
SK460	Tandem	14 t	10.3 m ³	13.0 m ³	18.5 m ³
SK500	Tandem	20 t	11.2 m ³	14.2 m ³	20.1 m ³
SK550	Tandem	22 t	12.3 m ³	15.6 m ³	22.1 m ³
SK600	Tandem	22 t	13.3 m ³	16.9 m ³	23.9 m ³
SK750	Tridem	30 t	16.6 m ³	21.3 m ³	29.8 m ³
SK800	Tridem	30 t	17.7 m ³	22.7 m ³	31.8 m ³

HEAVY DUTY HD

EARTH-MOVING TIPPER WITH FLAT FLOOR

Our Heavy-Duty (HD) models are robust construction site tippers with a flat floor sheet and an underfloor cylinder positioned in front of the first axle. They close the gap between the Halfpipe and SK model series and are the ideal choice for demanding construction site tasks. HARDOX® steels are available optionally to maximise durability.

MODEL	VEHICLE TYPE	PAYLOAD ON OWN PREMISES	WATER VOLUME	VOLUME ACC. TO ISO 7546
HD550 ^{*1}	Tandem	25 t	12.4 m ³	15.6 m ³
HD620 ^{*1}	Tandem	25 t	13.7 m ³	17.3 m ³
HD620T	Tandem	25 t	13.7 m ³	17.3 m ³
HD700	Tridem	30 t	15.5 m ³	19.8 m ³

^{*1} Also available as Carrier model

HALFPIPE HP

HALFPIPE EARTH-MOVING TIPPER

Our Halfpipe (HP) model series is a proven best-seller for the construction site. The halfpipe body with front tipping ram ensure that the load slides off easily with trouble-free tipping. The HP series is robust, economical and extremely stable. Thanks to the use of high-strength HARDOX® steels, the tipper body is even more hard-wearing and is ideally equipped for even the toughest tasks.

MODEL	VEHICLE TYPE	PAYLOAD ON OWN PREMISES	WATER VOLUME	VOLUME ACC. TO ISO 7546
HP20*1	Tandem	25 t	12.1 m ³	15.3 m ³
HP24	Tandem	26 t	13.0 m ³	16.5 m ³
HP30*1	Tridem	30 t	16.1 m ³	20.6 m ³

*1 Also available as Carrier model

SHL

HOOK LIFT SEMI-TRAILER

Our hook lift semi-trailers are equipped as standard with two main work cylinders, a push arm and a hydraulic container locking mechanism. During the pick-up process, the air suspension installed as standard deflates automatically, causing the chassis to sit on the rear axle. This eliminates the need for a heavy-duty support roller. The low pick-up angle due to the lowered suspension improves performance significantly.

MODEL	VEHICLE TYPE	LIFTING CAPACITY	TIPPING CAPACITY	CONTAINER LENGTH
SHL20	2-axle semi-trailer	25 t(30 t ^{*1})	25 t(33 t ^{*1})	7.00 m (8.50 m ^{*1})
SHL30	3-axle semi-trailer	25 t(30 t ^{*1})	25 t(33 t ^{*1})	7.00 m (8.50 m ^{*1})

*1 Option subject to extra charge
